HOT STATION TOPICS OF THE MONTH

They're coming! Management report our new consoles could be installed by month's end or shortly thereafter. New desks also look promising. 2022 is looking good!

There are several presenters who record their shows. A more efficient and easier USB alternative is being considered, or you can have it burned to disc. More details soon.

PROGRAMMING POINTERS: Did you know? You can check each week's Program Guide by checking the website: www.2wayfm.com.au

Don't forget. We have a hungry donations jar in the kitchen for coffee/tea bags, sugar, milk etc. And please treat the water cooler with care folks, its been repaired & working fine.

Remember CSAs are available on ZARA 20 -30secs should you need a short filler. Also great informative messages for our local community.
